

# Host an International Student

- \* **Are you interested in different cultures?**
- \* **Have you ever dreamed of traveling the world, but may be too busy?**
- \* **Do you enjoy young people and are concerned about the image the world has developed of the United States?**

You can make a change by “bringing” the world to you. Host an international student and open your home and heart to a teenager from another country and give the young student the opportunity to know, from the inside out, **who the real American people are.**

Our students don't need a lot. What they need is a sincere welcome, a place to sleep, breakfast and dinner. They have full health insurance and bring allowances to cover all their personal needs.

Does this sound interesting to you and would like to know more of this extraordinary opportunity?

Contact an ETC(**E**ducation, **T**ravel & **C**ulture) coordinator and join us like thousands of others.
